I. General description

Premium Line is a special line of Polanik hammers which have been prepared in cooperation with the Olympic Champion Szymon Ziolkowski. Polanik had invited the outstanding athlete to take part in the designing stage of the new hammer line. It took us 14 months to put the line into production. Each element of the premium line hammer (including the head, wire and handle) was designed anew according to the champion's comments. After each designing phase series of prototypes were created and Szymon Ziolkowski tested them during his training sessions. In that way, step by step, we eliminated all the weaknesses and perfected our product in the respect of selecting high quality materials, production precision, ergonomics, type of powder paint, as well as optimal dimensions and location of centre of gravity. The combination of our company's long-lasting experience as the producer of the high quality athletics equipment and Szymon Ziolkowski's knowledge as the one of the best throwers in the world gave the excellent result. Ziolkowski hammers are used in athletics hammer throwing events and training programs. Sports events and training should be conducted on grass surfaces or similar fields. Each hammer comes with a steel galvanized wire and a certified hammer handle.

Unique Set

Each hammer is an original set of specially selected elements: hammer head, wire and handle.

Individually Packed

Each element is separately packed.

The best competition implements in the market

They are manufactured with high accuracy, perfectly balanced and they have got optimal dimensions. Mastering all the elements during the whole production process guarantees that our premium hammer flies farther than an ordinary hammer, using the same throwing technique.

Every millimetre and every gram translate into metres and centimetres, and these decide who wins ...
